CONTENTS

NUMBER 1, JANUARY

1 Effect of nisoldipine on stress-induced myocardial damage in the conscious pig
K. Herbaczyńska-Cedro, Z. Lewicki, B. Barcikowski, K. Famulski, W. Gordon-Majszak, J. Kłoś, J. Wutzen and L. Ceremużyński

11 Anticonvulsant activity of di-*n*-propylacetate and brain monoamine metabolism in the rat
W. T. Abed

17 Effects of low dose infusion of atrial natriuretic factor on acute inhibition of angiotensin converting enzyme in normal man
M. Nakamura, N. Arakawa, Y. Kawata and M. Kato

23 Stimulation of β_1-adrenoceptors enhances electrically evoked [^{3}H]-acetylcholine release from rat phrenic nerve
I. Wessler, G. Holzer and A. Künster

33 Preliminary study on the antinociceptive effect of elephant β-endorphin
C-L. Wong, M-K. Wai, H-C. Cheng, D. Chung and D. Yamashiro

39 Effects of neuropeptide Y on baroreflex control of heart rate and myocardial contractility in conscious rabbits
R. B. Minson, R. J. McRitchie and J. P. Chalmers

51 Acute mannitol and saline volume expansion in the rat: Effect on transepithelial potential difference in proximal tubules
E. Sugo and Á. Z. Györy

61 Vasoactive intestinal polypeptide and human vaginal blood flow: Comparison between trans-vaginal and intravenous administration
C. Palle, H. E. Bredkjaer, B. Ottesen and J. Fahrenkrug

69 Contractile responses to α_1-adrenoceptor stimulation during maturation in the aorta of the normotensive and spontaneously hypertensive rat: Relation to structure
K. Sudhir and J. A. Angus

NUMBER 2, FEBRUARY

87 Nicotinic agonist modulation of feline bronchomotor tone
D. C. Thompson, R. J. Altiere and L. Diamond

99 Rat duodenal smooth muscle contractile responses to angiotensin II are dependent on calmodulin
L. B. Weekley

105 Effects of strophanthidin on the slow inward current in guinea-pig isolated ventricular myocytes
L. Yang and M. Vassalle

121 Sodium intake modulates renal vascular reactivity to endothelin-1 in Dahl rats
E. Grossman, A. Hoffman and H. R. Keiser

129 Changes in saline and water intakes in bromocriptine-treated genetically hypertensive and normotensive rats
B. K. H. Tan and J. S. Hutchinson

135 Selective depression of maximum rate of depolarization of guinea-pig ventricular action potentials by amiodarone and lignocaine in simulated ischaemia: Comparison with encainide
T. J. Campbell and P. D. Hemsworth

147 Effects of endothelial cell removal on α-adrenoceptor-mediated responses of aortae of pregnant rats
C. Jansakul, R. G. King and A. L. A. Boura

157 Effect of CGS 9896 on stress-induced gastric ulcer in the rat
R. A. Najim and K. H. Karim

NUMBER 3, MARCH

Short Communications from the High Blood Pressure Research Council of Australia

163 A 'hypertensinogenic' class of steroid hormone activity in man?
J. A. Whitworth and B. A. Scoggins

167 Some aldosterone-producing adrenal tumours also secrete cortisol, but present clinically as primary aldosteronism
T. J. Tunny, S. A. Klemm and R. D. Gordon

173 Suppressor calcium infusion raises plasma atrial natriuretic peptide concentrations in humans
W. L. Finn, T. J. Tunny, S. A. Klemm, R. E. Thompson and R. D. Gordon

179 Naloxone-induced ACTH release in man is inhibited by clonidine
R. N. Jackson, J. E. Grice, A. J. Jackson and G. I. Hockings

185 A renin-secreting tumour sensitive to changes in central blood volume (presumably via sympathetics) but not to circulating angiotensin II
R. D. Gordon, T. J .Tunny, S. A. Klemm, W. L. Finn, P. J. Hawkins, S. J. Hunyor and J. J. Norris

191 Biochemical correction in the syndrome of hypertension and hyperkalaemia by severe dietary salt restriction suggests renin-aldosterone suppression critical in patho-physiology
S. A. Klemm, R. D. Gordon, T. J. Tunny and W. L. Finn

197 A factorial study of fat and fibre changes and sodium restriction on blood pressure of human hypertensive subjects
S. E. G. Sciarrone, I. L. Rouse, P. Rogers and L. J. Beilin

203 Isolated systolic hypertension: Does it really exist on ambulatory blood pressure monitoring?
C. A. Silagy, J. J. McNeil and B. P. McGrath

207 Prevalence of left ventricular hypertrophy in elderly patients with well controlled hypertension
E. Jones, T. O. Morgan, P. Califiore and J. Johns

211 Prognosis of male patients with treated hypertension followed over 15 years
T. O. Morgan, A. Anderson, J. Hopper and G. Maskill

215 Hypothesis: Ischaemic plaque necrosis as the initiator of unstable angina/acute myocardial infarction?
G. W. Boyd

219 Vasoconstriction in the renal vascular bed during exercise: Studies in control and heart failure rabbits
D. Langton, D. Way, L. Trigg, D. Blake and B. McGrath

225 Hyperlipidaemia increases albuminuria in hypertensive and normotensive rats
M. E. Cooper. D. A. Vranes, S. Panagiotopoulos, T. J. Allen, I. Goodall and G. Jerums

229 High salt diet ameliorates effects of angiotensin converting enzyme inhibition in spontaneously hypertensive streptozotocin diabetic rats
B. Jackson, B. Fabris, D. Paxton, L. Franze and C. I. Johnston

235 Effect of fish oil feeding on blood pressure and vascular reactivity in spontaneously hypertensive rats
K. Yin, Z. M. Chu and L. J. Beilin

241 Haemodynamic effects of long-term endothelin infusion in conscious sheep
A. F. Reid, D. G. Parkes, J. P. Coghlan, B. A. Scoggins and J. A. Whitworth

NUMBER 4, APRIL

Short Communications from the High Blood Pressure Research Council of Australia

247 Effects of regular alcohol consumption on 24 hour ambulatory blood pressure recordings
L. G. Howes, H. Krum and P. A. Phillips

251 Controlled comparison of effects of exercise and alcohol on blood pressure and serum high density lipoprotein cholesterol in sedentary males
K. L. Cox, I. B. Puddey, A. R. Morton, J. R. L. Masarei, R. Vandongen and L. J. Beilin

257 Effect on graded adrenaline infusion on arterial adrenaline clearance in normotensive and hypertensive man
A. W. Bachmann, R. D. Gordon, R. A. D. Bathgate and R. E. Thompson

263 Mechanisms involved in the stimulation of aldosterone production by angiotensin II, vasopressin and endothelin
E. A. Woodcock, J. K. Tanner, L. M. Caroccia and P. J. Little

269 Mechanisms of the effects of endothelin on responses to noradrenaline and sympathetic nerve stimulation
H. K. Wong-Dusting, M. La and M. J. Rand

275 Endothelin stimulates inositol phosphate accumulation in rat right and left atria: A comparison with noradrenaline
I. J. Kuraja and E. A. Woodcock

281 Inhibition of endothelial nitric oxide biosynthesis by *N*-nitro-L-arginine
P. N. Dubbin, M. Zambetis and G. J. Dusting

287 Uridine kinase inhibition is involved in the vasodilator effects of minoxidil in the rat
G. Macdonald, T. Walker, R. Assef and K. Duggan

291 Prevention of arterial disease in experimental renal hypertension
A. C. Yong and G. W. Boyd

297 Sodium-dependent, ethylisopropylamiloride-sensitive mechanisms regulate intracellular pH in human vascular smooth muscle
A. Bobik, C. B. Neylon, P. J. Little, E. J. Cragoe Jnr and P. L. Weissberg

303 Shift in the baroreflex-renal noradrenaline spillover curve during the development of congestive heart failure in the rabbit
B. P. McGrath, N. Sano and D. Way

309 Increased cardiac angiotensin converting enzyme in rats with chronic heart failure
B. Fabris, B. Jackson, M. Kohzuki and C. I. Johnston

315 Effects on sheep blood pressure of treatment with angiotensin, steroids and salt
E. R. Lumbers

321 Reduced V_1 vasopressin binding in the rat nucleus solitarii after nodose ganglionectomy
P. A. Phillips, R. E. Widdop, S-Y. Chai, J. Kelly, V. Mooser, D. Trinder and C. I. Johnston

NUMBER 5, MAY

327 Cardiovascular effects of nicotine during physical activity and following meal consumption
K. A. Perkins, L. H. Epstein, R. L. Stiller, J. E. Sexton, B. L. Marks and R. G. Jacob

335 Metabolism of tetradecapeptide, angiotensinogen and angiotensin I and II by isolated perfused rat hindlimbs
D. J. Campbell, J. Ziogas and A. Kladis

351 Haemodynamic effect of endothelin, a novel potent vasoconstrictor in dogs
A. Otsuka, H. Mikami, K. Katahira, T. Tsunetoshi, K. Kohara, K. Minamitani, A. Moriguchi and T. Ogihara

361 Dopamine infusion in healthy subjects and critically ill patients
D. Ratge, U. Steegmüller, G. Mikus, K. P. Kohse and H. Wisser

371 Influence of neonatal hypothyroidism on adrenal tyrosine hydroxylase activation in the young rat
M. Valens and D. Gripois

Short Communications

377 Lack of pressor response to intracerebroventricular infusion of aldosterone in sheep
J. J. Tresham, J. P. Coghlan, J. A. Whitworth and B. A. Scoggins

381 Effects of atrial natriuretic peptide on phenylephrine-induced renin release in dogs
Y. Tomura, H. Hisa and S. Satoh

385 **Book Reviews**

387 **Corrigendum**

389 **Announcements**

NUMBER 6, JUNE

391 Serum angiotensin converting enzyme activity and plasma renin activity in experimental models of rats
M. E. Ibarra-Rubio, C. Cruz, E. Tapia, J. C. Peña, and J. Pedraza-Chaverri

401 Antidiuretic effects of neurotensin in chloralose anaesthetized dogs
S. D. Kivlighn and B. S. Jandhyala

413 Relaxation of mesenteric artery of stroke prone spontaneously hypertensive rats by calcium removal
S. Sunano, T. Shimada, K. Moriyama and K. Shimamura

427 β-adrenoceptor mediated secretion of active and inactive renin in conscious sheep
A. H. K. Al Kattan, J. C. Parker and A. R. Noble

163 Plasma and pituitary thyroid-stimulating hormone levels in bromocriptine New Zealand genetically hypertensive and normotensive rats
B. K. H. Tan and J. S. Hutchinson

445 *In vivo* generation and elimination of angiotensin in the rat
J. Jacobsen and K. Poulsen

453 Relationship between systemic and coronary vascular responses to digoxin and concurrent drug therapy with verapamil/β-adrenoceptor antagonists in humans
A. C. Powell, J. D. Horowitz, Y. Hasin and W. J. Louis

Short Communication

463 Effect of dimethylsulphoxide on cysteamine-induced duodenal ulceration in rats
B. H. Ali

NUMBER 7, JULY

467 Calcitonin gene related peptide: Vasodilator in ovine hepatic and renal vasculature
D. R. Fletcher, K. G. Braslis, A. Shulkes and K. J. Hardy

477 Density dependence of respiratory input impedance in normal subjects
E. F. M. Wouters, F. J. Landsèr, A. H. Polko and B. F. Visser

485 Time course of recovery of β- and α_1-adrenoceptors in experimental asthma
J. Shindoh, S. Sugiyama, K. Hayashi, K. Takagi, T. Satake and T. Ozawa

495 The antinociceptive actions of kava components in mice
D. D. Jamieson and P. H. Duffield

509 Positive interaction of ethanol and kava resin in mice
D. D. Jamieson and P. H. Duffield

515 Enzyme immunoassay for methionine-enkephalin sulfoxide
G. K. L. Tiong and J. E. Olley

521 Pertussis toxin attenuates angiotensin II but not β-adrenoceptor facilitation of noradrenaline release from rat kidney cortex
T. V. Murphy and H. Majewski

Short Communication

527 A lack of potency for the δ-opioid antagonist naltrindole after microinjection into the rostral ventrolateral medulla of rabbits
D. Morilak, G. Drolet and J. Chalmers

NUMBER 8, AUGUST

531 Noradrenaline sensitivity and calcium fluxes in arteries from rabbits with perinephritis hypertension
M. T. Hall, R. M. Wadsworth, K. A. Kane, C. A. Hamilton, J. L. Reid and I. W. Rodger

545 Influence of cardiac afferents on time-dependent changes in the renal sympathetic baroreflex of conscious rabbits
L. B. Bell, P. K. Dorward and C. D. Rudd

557 Changes in prejunctional potency of B-HT 933 during aging in the rat vas deferens
C. W. Pagenkopf, J-P. Bourreau and C. E. Challice

567 Renal and myocardial adrenoceptors in steroid contraceptive-induced hypertension in rats
D. P. Geraghty, K. B. Byrne, G. A. McPherson and E. Burcher

579 Subsensitivity to ATP and some analogues in preparations of rat cauda epididymis and vas deferens after vasectomy
S. Ventura, R. M. DeGaris, C. K. Stead and J. N. Pennefather

589 Positive inotropic and vasoconstrictor responses to 14β-aminopregnane derivatives in isolated tissues from the guinea-pig
L. Brown

Short Communication

595 Evidence for the inhibitory effect of 5-hydroxytryptamine at central and peripheral sites on ovulation in rabbits
N. Mishra, K. K. Tangri, K. P. Bhargava and M. L. Gupta

NUMBER 9, SEPTEMBER

601 Selective inhibition of responses to carbachol and McN-A-343 in the rabbit vas deferens
L. K. Choo and F. Mitchelson

613 Filtration failure induced by *p*-aminophenol in rats is due to raised intratubular pressure and not changes in glomerular function
M. A. Henry, P. J. Harris, R. J. Naughton, L. L. Walker, S. L. Skinner and J. D. Tange

627 The effect of inhaled fenoterol and ipratropium bromide on propranolol induced bronchoconstriction in the asthmatic airways
K. M. Latimer and R. E. Ruffin

637 The actions of tulobuterol on isolated preparations of gravid human myometrium
S. P. Ziccone and J. D. Paull

645 Short term Vitamin E supplementation has no effect on platelet function, plasma phospholipase A_2 and lyso-PAF in male volunteers
P. L. Silbert, L. L. L. Leong, M. J. Sturm, J. Strophair and R. R. Taylor

653 Effects of blood gas/pH abnormalities on the cardiovascular actions of verapamil in rats
F. I. Achike and S. Dai

665 Characteristics of cardiovascular reflexes originating from 5-HT_3 receptors in the heart and lungs of unanaesthetized rabbits
R. G. Evans, J. Ludbrook and J. Michalicek

NUMBER 10, OCTOBER

681 Vasodilatory effects of milrinone on pulmonary vasculature in dogs with pulmonary hypertension due to pulmonary embolism: A comparison with those of dopamine and dobutamine
H. Tanaka, K. Tajimi, A. Matsumoto and K. Kobayashi

691 Systemic and regional effects of endothelin in rabbits: Effects of endothelin antibody
I. Miyamori, Y. Itoh, T. Matsubara, H. Koshida and R. Takeda

697 Effect of lignocaine on coronary blood flow, systolic myocardial function and myocardial high energy phosphate stores in swine
N. Perlmutter, R. Wilson, M. Joyce, D. Angello and D. Gee

707 Body growth and polycythaemia in hypoxic albino rats of first and second generation
U. Quatrini, A. Licciardi and G. Morici

713 Effect of long-term administration of testosterone oenanthate on sympathetic neurotransmission to rat isolated seminal vesicles
J. P. F. Chin and J. N. Pennefather

725 Effects of the α_2-adrenoceptor agonist UK14304 on pressor responses in pithed rats
X-H. Xiao and M. J. Rand

Short Communication

735 The effect of ivermectin on some haematological indices in rabbits: Influence on vitamin K treatment
B. H. Ali

739 Daily variation in influence of lithium on serum calcium concentration: A preliminary report
A. Fujimura, K-I. Ohashi and A. Ebihara

743 **Book Review**

NUMBER 11, NOVEMBER

745 Effects of chronic converting enzyme inhibition on the vascular renin–angiotensin system
H. Saito, M. Nakamaru, H. Rakugi, H. Mikami, T. Ogihara and T. Inagami

755 Relationship between gastric mucosal prostaglandin levels and healing of gastric lesions in rats
M. Kuroiwa, S. Sugiyama, A. Ohara, H. Goto, Y. Tsukamoto, S. Nakazawa and T. Ozawa

763 Intracerebroventricular infusions of insulin increase vasopressin release in rats
M. Nishimura, H. Takahashi, M. Matsusawa, I. Ikegaki, T. Nakanishi, M. Hirabayashi and M. Yoshimura

769 Does verapamil limit myocardial infarct size in a heart deficient in xanthine oxidase?
T. Adachi, T. Miura, T. Noto, H. Ooiwa, T. Ogawa, A. Tsuchida, T. Iwamoto, M. Goto and O. Iimura

781 Effects of halothane, ketamine, propofol and alfentanil anaesthesia on circulatory control in rabbits
A. F. Van Leeuwen, R. G. Evans and J. Ludbrook

Short Communications

799 Lack of effect of granulocyte-macrophage colony stimulating factor on the rat aorta or human saphenous vein
T. Watabe and R. F. W. Moulds

805 Effect of stress on the catecholamine content of the adrenal gland of intact and bursectomized chicks
S. K. Mahata, M. De, D. Pal and A. Ghosh

809 Changes of ADP-ribosylation of GTP-binding protein by pertussis toxin in human platelets during long-term treatment of manic depression with lithium carbonate
Y. Watanabe, H. Morita, T. Imaizumi, M. Takeda, S. Hariguchi, T. Nishimura and H. Yoshida

NUMBER 12, DECEMBER

813 The effect of prazosin therapy on platelet aggregation in essential hypertension
A. Okrucká, J. Pechán and M. Mikulecký

821 Effect of ethamsylate on carrageenan-induced rat paw oedema: A comparison with indomethacin
P. R. Gard and D. J. Trigger

829 Measurement of blood–brain barrier permeability
P. J. Robinson

841 Effect of acetylcholine and morphine on bronchial smooth muscle contraction and its modulation by steroid hormones
B. M. Nabishah, P. B. Morat, B. A. K. Khalid and B. A. Kadir

849 Comparison of theophylline and enprofylline effects on human neutrophil superoxide production
M. Kaneko, K. Suzuki, H. Furui, K. Takagi and T. Satake

861 Vascular actions of endothelin in the rabbit kidney
K. M. Denton and W. P. Anderson

873 **Book Reviews**
